Career Development Awards

Recognizing that scholarships are traditionally awarded to students with plans of pursuing a four-year degree, ETS's former president William Turnbull founded CDA in 1969. Our mission is to provide scholarships to students attending two-year educational institutions or technical programs. Since our beginning, CDA has granted over 20 scholarships each year. Helping students to fulfill their dream of a higher education, these awards open doors and offer a lifetime of opportunities. Recipients are chosen based on financial need as well as high school academic achievement and work experience.

CDA is a nonprofit organization; every dollar donated is used for student scholarships. All operating expenses are covered by Board Member volunteers.

Today's manufacturing environment requires greater emphasis on technical training. To meet this need, it is important to encourage and support those students wishing to pursue technical careers.

CDA helps to provide such an opportunity.
